Claims 1-11 and 13-23 are presented for examination.

The amendments and remarks filed on December 12, 2000 have been received and entered.

Claims 1-11 and 13-23 are rejected under 35 U.S.C. 103 as being unpatentable over WO 9408585 and Klunder for the reasons set forth on page 2 of the office action of September 7, 2000.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Claims 1-5 and 13-17 are directed to a pharmaceutical composition, which basically reads on the claimed compounds in combination with a pharmaceutically acceptable carrier. Applicant's attention is directed to In re Dillon, 16 USPQ2nd 1897 at 1900 (CAFC 1990). The court sitting in banc ruled that the recitation of a new utility for an old and well known composition does not render that composition new. Thus, to use an old composition for a new purpose does not create a patentably distinct composition. The determination of optimum proportions or amounts are within the skill of the artisan. Claims 6-11 and 18-21 are directed to a use of the prostaglandin E and F for the treatment of glaucoma. WO clearly teaches the use of prostaglandin E and F for the treatment of glaucoma. The dependent claims are directed to the use of specific prostaglandin E and F for the treatment of glaucoma. Since prostaglsnins E and F in general are used for the treatment of glaucoma, it would have been obvious to a person skilled in the art to use their derivatives for the same purpose in the absence of evidence to the contrary. Ther is also no evidence of record to demostrate the reduced melanogenesis using prostaglandins E and F. Applicant has presented no evidence to establish

Application/Control Number: 09/445,919

Art Unit:

the unexpected or unobvious nature of the claimed invention, and as such, claims 1-11 and 13-23

are properly rejected under 35 U.S.C. 103.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time

policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE

MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date

of this final action.

1. Any inquiry concerning this communication or earlier communications from the examiner

should be directed to examiner fay whose telephone number is (703) 308-4604.
